330 / 700ml Ink Tank

Vibrant, Eye-Catching Color Quality

On-The-Spot Printing

Posters with Photos and Illustrations

Retail, Service and Educational Printing Needs

6-COLOR SERIES FEATURES

6-COLOR LUCIA EX INK SET

Canon's 6-Color LUCIA EX ink system is formulated for vibrant point-of-purchase materials and retail signage that are eye-catching. A new **red** ink is added to the existing C, M, Y, BK and MBK colors, for expanded color gamut in the yellow-red regions. LUCIA EX pigment inks are colorfast, fade-resistant and compatible with a wide range of print media including fabric banners or cloth.

HIGH-QUALITY PRINTS AT LOW COSTS

The 6-Color series large format printers meet the needs of business owners and service providers looking for a low cost yet high-resolution pigment ink model that provides on-the-spot printing with broad media support.

FAST MODE PRINTING

In Fast Mode, these 6-Color SE models only take about one minute to print out one A1/D-sized poster on coated paper. This quick turnaround time is ideal for retail stores or businesses that often produce point-of-purchase sales materials, posters or banners.

LARGE-CAPACITY INK TANKS

The 24-inch iPF6410SE model is equipped with either options of 130ml or 300ml ink tanks, while the 44-inch iPF8410SE model comes with either 330ml or 700ml ink tanks. The 6-Color SE models also consume less ink as the printers do not use light density inks. Both come with sub ink tanks which reduce downtime by enabling ink replacement during printing.

OPTIMIZED FOR POSTER CREATION

Both 6-Color SE models come with ample software for poster creation. The printers include PosterArtist Lite which enables users to easily produce high-grade posters without the need for any specialized design skills.

In addition, the wizard-based Print Plug-In for Office enables easy large format printing from familiar Word or PowerPoint environments.
